

Dominion Club at New Albany Links Compliant Shutter, Front Door and Wood Trim Colors

The portfolio binder on file with the Design Review Committee (DRC) contains sample shutters and color swatches for shutters, doors, and exterior wood trim. The colors are compliant with colors selected by the developer from brand (e.g., Sherwin Williams) palettes available at the time, and approved by the Village of New Albany during the zoning process for the Dominion Club at New Albany Links.

It is recommended that flat paints be used for shutters, house trim, mailbox and poles. Semi-gloss color matching the shutters is recommended for front doors.

A SAMPLING – not all – color codes for approved DC colors are provided below. The vendors are:

Sherwin-Williams Paint 1241 N. Hamilton Rd Gahanna, OH 43230 614-472-2520	Ace Hardware 5595 New Albany W. New Albany, OH 43054 614-855-9090	Valspar Paint Lowe's 4141 Morse Crossing Columbus, OH 43219 614-476-7100
Benjamin Moore Creative Paints 1042 Proprietors Road Worthington, OH 43085 614-888-5386	Benjamin Moore Creative Paints 781 Reynoldsburg - New Albany Road (Rt. 605 before Broad) Blacklick, OH 43004 614-759-0200	

Specific paint formulas are in the computer systems at the Sherwin-Williams and Ace Hardware stores. Other stores should be able to mix the appropriate colors from the Sherwin-Williams color codes.

At Ace Hardware in New Albany in the paint section ask the clerk to enter “customers” in the computer, then select “Dominion Club” for a list of the colors referenced here.

House Trim Colors

House trim colors are Natural Linen (an off-white) or White Linen (a brilliant white).

Mailbox & Lamppost Colors

Mailbox and lamppost color is semi-gloss black. Rustoleum grade is fine. The New Albany Links Homeowner's Association (NALHOA) maintains all Links mailboxes, including the Dominion Club, for painting and repairs for normal wear-and-tear. Contact the NALHOA property manager for information or assistance.

Homeowners are responsible for painting and maintaining their lampposts.

Shutter and Front Door Colors

Currently, five colors are approved per the architectural standards within the Dominion Club for shutters and front door treatment.

It is recommended that shutters be painted using a flat paint, and front doors be painted using a semi-gloss or low gloss paint of the same color code.

The colors can be generally described as Black, Midnight Blue, Midnight Green, Musket Brown and Wineberry.

Since vendor names for their colors vary, the Design Review Committee has collected some vendor paint codes, listed below, for your reference should you chose the brands listed.

They all key off the color of the shutters, originally provided by the builders and supplied by APCO Industries, 777 Michigan Avenue, Columbus, Ohio 43215, 614-224-3186.

Shutter and Front Door Colors:

Basic Color		Paint Codes		
	APCO	Sherwin-Wms	Benj Moore	Valspar
Black	2	Black	Black	Black
Wineberry	78	Custom mix to match shutter*	Cottage Red	Royal Garnet 1011-5
Midnight Green	122	Jasper SW6216	Essex Green	Black Evergreen 5009-1

Midnight Blue	166	Custom mix to match shutter*	Custom mix to match shutter*	Royal Navy 4011-4
Musket Brown	10	Musket Brown SW8411	Night Horizon	Safari Brown 6009-1

* **Note:** Color swatches and codes for the swatches not available in this portfolio can be created by signing-out the shutters samples from the DRC Manual (contact a DRC representative) to take to the paint store of your choice to match the paint.

Keeping the same color on your shutters does not require an exterior modification filing. If you are changing the color of your shutters to one of the other accepted colors, no exterior modification filing is required.

It may be easier and less expensive and/or time consuming to obtain same style replacement vinyl shutters. Replacement may also be easier if you are switching to another color from within the approved palette. Be sure to consult your shutter vendor about:

- aligning and using the same pattern of holes in each replacement shutter, or be sure any “pre-drilled” holes align.
- getting the right number and matching color of vinyl shutter mount taps.

Any other variation in color or style requires an exterior modification form filing. Include a color swatch and code as an attachment to your application to the Design Review Committee.
